With a tender hand

Caring for spiritual life and community building in our Meetings and Worship Groups

For Friends who are Elders, Overseers, or serving on similar groups, together with other interested Friends. Monthly Meetings and Worship Groups are asked to encourage Friends to attend (including younger Friends) who in the future might serve in one of these roles.

How can we encourage spiritual depth on our Meetings -

in worship, including preparation for worship, fostering stillness and depth in the silence, giving and receiving vocal ministry?

in times of study and ways of attentive and loving listening to one another?

How can we create a caring community which -

values everyone of all ages in the Meeting and empowers them to contribute?

cope in love with difficulties when they arise?

creates a safe space where those who have been hurt are able to speak out and to experience the care of the Meeting?

offers support to one another in the blessings, concerns and changes which life brings?

nurtures the nurturers?
